Election Appliacion: <https://polkadot.subsquare.io/referenda/858>

Summary

Over the course of three months, I was actively engaged in various initiatives to strengthen and guide the Polkadot ecosystem. My efforts included consistent participation in weekly and non-weekly calls, offering free consultation to ecosystem teams, and mediating between conflicting parties. I also played a key role in merging the work of the HAs into a comprehensive guide, while pushing for the onboarding process of candidates and Working Groups. Additional contributions, both big and small, can be found across multiple documents and processes.

Tasks on a weekly base during the 3 months:

- Active participation in weekly calls
 - Participation in non-weekly calls
 - Working on the document to merge all work of the HAs into a guide
 - Free consultation and advice for ecosystem teams
 - Mediating between drama parties on a daily base
 - Helping to push onboarding of candidates and WGs lately
 - You can find many of other smaller contributions in documents and processes
 - Active participation in OpenGov (with or without HA role I do that anyways)
 - Supporting Polkadot Hungary (with or without HA role I do that anyways)
 - Participation in minor events, like meetups and internal/private presentations
-

Timeline of my major contributions

1. Working on the initial structure of the new program and helping on getting communication ready between HAs
2. Successfully proposing a new official Polkadot Hub in Budapest:
<https://forum.polkadot.network/t/the-next-polkadot-hub-budapest-astoria/8198/>
 1. OpenGov proposal: <https://polkadot.polkassembly.io/referenda/1057>
3. Opening up the discussion with the Hungarian Blockchain Coalition for Polkadot.
4. Signing MOU between G6 Networks and C9 to implement Substrate based private networks for Brazilian TownHalls: <https://techbullion.com/g6-networks-partners-with-c9-tech-to-bring-blockchain-technology-to-over-5000-brazilian-municipalities/>
5. Research on Polkadot's narrative and state (from this came out the idea to start one-on-one meetings).
6. Participating at CoinFest Asia and Bali Blockchain Summit in Bali
7. Organizing the 3rd Polkadot Championship with CCTF DAO alongside Bali Blockchain Summit as a local hackathon was requested: <https://www.youtube.com/watch?v=uHRcTECxAlQ>
8. One-on-one discussions for the article I wrote (link below). This took a major amount of time to organize and conduct them.
9. The summarized article of one-on-one discussions: Polkadot's Path Forward: Insights from the Heart of the Ecosystem: https://medium.com/@six_65870/polkadots-path-forward-insights-from-the-heart-of-the-ecosystem-3d7d24b20323

Closing words

In closing, although I have stepped down from my formal role, my commitment to the Polkadot ecosystem remains. I am always happy to offer support and guidance to continue growing the community. The journey doesn't end here - I look forward to contributing in my free time and watching the ecosystem thrive in the future.
