Expanding light upon the photographic medium Gisel develops manual & cinematic techniques to carve new paths through the lens of a post-digitized era. Currently finalizing #Moonlanguage “Verses of a Visual Universe”. A non-literal alphabet of verse, captured in-camera during a dance with the moon. Her previous passions ignited #TransmissionofLight; expanding the conversation around generative photographic captures of light and time. This ongoing collection displays the specific colors and intricate texture-play within the city that never sleeps, NYC. Leading artistic initiatives Gisel is exploring new paths

towards autonomy for creatives & photography in web3 since 2019. Based in New York, Co-founder @helloWOCA (Women of Crypto Art). Gisel also is cofounder with her husband NelsonX to NewYorkIceCreamGallery(NYG), Art Advisor to @TheVerseVerse & collector of the genesis floor room at @MuseumofCryptoArt
